

## CABLE APPLICATIONS

With over 25 years in experience in the mechanical cable industry, Flex Technologies Inc. is ready to apply our expertise to your next application. Utilizing our comprehensive integration, we have the ability to come up with unique solutions to meet our customers demanding applications.

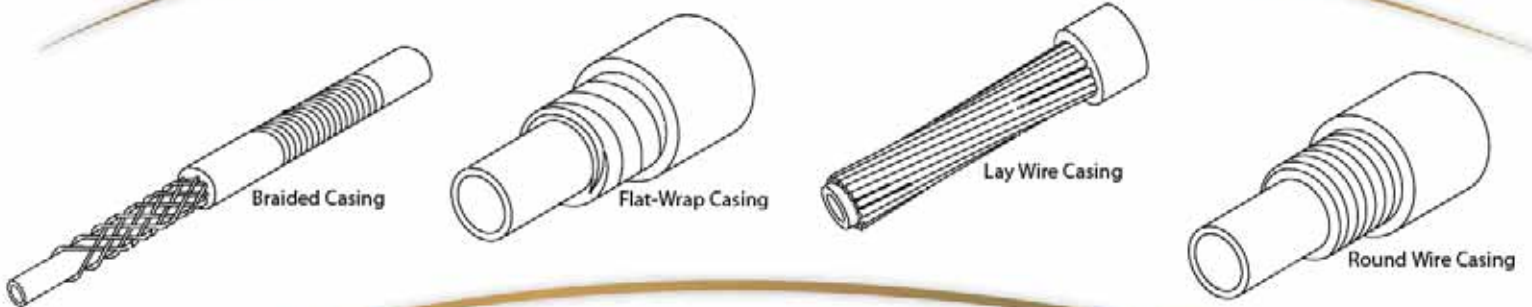

Capabilities include the most extensive Conduit/Outer Casing line up in the industry which includes Braided Construction (specifically designed to your specifications), Flat Wrap, Bowden, Lay Wire and Mono-Wall constructions. Combine this expertise with our Shuttle Molding, Conventional Molding, Wire Cutting, Die Casting and Pad Printing capabilities and we have a full complement of capabilities.

Centrally located in Lafayette, TN (1 hour North of Nashville), we are positioned to allow for close work partnerships with our customers. Our in-house machine shop capabilities are a valuable asset as we can offer rapid turnaround times for both prototype and production tooling.

With over 25 years of experience in the mechanical cable industry, we remain committed to providing our customers with quality engineered products at competitive prices.
